Where is the Westfield energy recovery facility located?

The Westfield Energy Recovery Facility is situated in Fife, Scotland, within a well-connected industrial area, playing a vital role in supporting the region's transition to sustainable energy solutions. The Westfield Energy Recovery Facility (WERF) is a state-of-the-art energy-from-waste plant located in Fife, Scotland.

What is Westfield Green Energy Park?

Operational since 30th June 2025, the £220 million facility transforms a former opencast coal site near Kinglassie into a clean energy flagship. Located in the Westfield Green Energy Park, WERF converts non-recyclable residual waste into electricity and heat, supporting Scotland's Net Zero and Zero Waste goals.

What's happening at Westfield energy recovery facility in Q4 2024?

Construction Progress: hot commissioning underway in Q4 2024. The Westfield Energy Recovery Facility is at the forefront of sustainable waste management in Scotland. By processing 240,000 tonnes of non-recyclable waste annually, WERF significantly reduces landfill reliance while generating clean, renewable energy.

Where is Westfield located?

Each occupier at Westfield can take advantage of the following: Strategically positioned in mid-Fife approximately 5 miles to the east of Junctions 4 and 5 of the M90 (Edinburgh - Perth) motorway and 3 miles north of the A92 (Dunfermline - Kirkcaldy/Glenrothes) dual carriageway.
