Why is 5G important in Myanmar?

If we use generators, it is difficult to supply diesel fuel." Myanmar is gearing up for the rollout of 5G services nationwide, which have the potential to produce breakthroughs in socio-economic development by fostering digital evolution in industries such as agriculture, health and manufacturing.

When will 5G be available in Myanmar?

According to the GSMA website, 261 operators in 101 countries started to deploy a 5G network by January 2024, while MPT will be included as a 5G service provider in Myanmar. "We are trying our best to bring world-class communication technology to the Myanmar users.

Will MPT be a 5G service provider in Myanmar?

Last year MPT has carried out High-Speed LTE expansion in Yangon and Mandalay and 5G trial will be one of MPT's initiative in satisfying customers. According to GSMA website, as of January 2024, 261 operators in 101 countries had launched commercial 5G services and MPT will be one of the 5G service providers in Myanmar. Image: MPT

Will Myanmar have a 5G rollout?

The government will likely require 5G licence holders to offer coverage nationwide, but this will present serious challenges, and only Myanmar's major cities would be profitable in the near term. Other challenges to a 5G rollout include an immature handset ecosystem, although it is only a matter of time before 5G compatible devices are commonplace.
