How much does a solar power plant cost in Zanzibar?

Picture used for illustrative purposes. Zanzibar, the semi-autonomous province of Tanzania, has signed an agreement with Mauritius-based Generation Capital Ltd. and Tanzania's Taifa Energy to build its first large-scale solar power plant, as it seeks to become energy independent. The plant will cost \$140 million.

Why did Generation Capital invest in Zanzibar's solar PV infrastructure?

Generation Capital Limited and Taifa Group's investment in Zanzibar's solar PV infrastructure aligns with the country's vision. The integration of solar PV into Zanzibar's energy mix supports the Blue Economy agenda enhancing energy security, diversifying the energy mix, and promoting sustainable development.

Will Zanzibar start generating its own electricity?

FOR the first time ever, Zanzibar will start generating its own electricity, a move which will reduce dependence on power transported from Tanzania Mainland. This comes after the Zanzibar government on Monday signed a contract with investors to generate 180MW from solar energy.

How will the 180MW solar PV project impact Zanzibar?

The 180MW Solar PV Project, worth 330bn/-, is expected to revolutionise Zanzibar's energy landscape and will ensure the reliable supply of clean and renewable power to the citizens of Zanzibar, the tourism and other industries and will pave the way for a sustainable future.
