Locals are contesting a grant of permission to plans for a battery energy storage system (ESS) facility near the town of Newmarket in North Cork.

The European onshore business, responsible for the development and operation of wind, solar, and energy storage projects in Ireland, the UK, Germany, and Spain, boasts a robust portfolio. ...

ESB has today opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability and deliver ...

ESB has officially opened a 150MW (300MWh) battery energy storage system (BESS) at its Aghada site in County Cork, marking a major milestone in Ireland's renewable energy infrastructure.

From stabilizing renewable grids to empowering energy-independent businesses, Cork's battery storage solutions are rewriting Ireland's energy rules. As technology advances and costs decline, there's ...

The Electricity Supply Board has opened a new major battery plant at its Aghada site in County Cork. The project will add 150MW (300MWh) of fast-acting energy storage to provide grid ...

As Ireland accelerates its transition to renewable energy, backup energy storage batteries have become the linchpin of grid stability. With wind power supplying 33% of electricity and solar installations ...

The high-capacity batteries can store excess renewable energy for discharge when required, and in doing so, help to 2030 climate targets and ESB's Net Zero 2040 ambitions.

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery ...
